

Blacktown Community Energy Workshops.

Helping homes & businesses navigate energy-efficient upgrades.

Solar, Batteries & Electrification.

1 April 2023 | 9:30am - 12:30pm

Grantham Sustainability HUB, or online via Zoom (register for link)

A robust discussions around, how solar, batteries or EV chargers systems should be sized, maintained and chosen along with commentary around common products, programs and activity in the market.

Hosted by James Wallis, Energy Solutions Specialist at Ecovantage

Finance Home Energy Upgrades.

29 April 2023 | 9:30am - 12:30pm

Grantham Sustainability HUB, or online via Zoom (register for link)

An in depth discussion around the various state (NSW) and federal incentives available to households and small business owners to help them replace old appliances and infrastructure with newer, more energy efficient products.

Hosted by Angus Taylor, Program & Account Manager at Ecovantage

Energy Upgrades for Businesses.

25 May 2023 | 1:30pm - 4:30pm

Online via Zoom (register for link)

Come for a discussion held by Ecovantage's Energy & Carbon General Manager, on pathways businesses can take to find how their energy is being used, how to control their energy spend and what support is available to create a strong business case for energy efficiency.

Hosted by Aaron Jenkins, General Manager Energy & Carbon at Ecovantage

Workshops are **FREE** to attend. Simply register your spot at blacktown.nsw.gov.au
